## **REASONS FOR ALLOWANCE**

1. This Office Action is responsive to the Amendment filed on 12/23/04.
2. Claims 1-16 are allowed.
3. The following is an examiner's statement of reasons for allowance:

References (6618367), (6118825), (6549544) and (5844907) are additionally cited because they are pertinent to the claimed invention.

-Regarding to independent claim 1, none of prior art of record teaches or suggests the method as claimed. Dent (6,084,865), previously cited, at least, fails to teach the limitation "receiving compressed pilot bit sequences of frame synchronization words over a frame, pilot bit sequences being classified into pairs and two pilot bit sequences of each pair having a relation, one pilot bit sequence of each pair being the other pilot bit sequence shifted by a predetermined bit length and then inverted in accordance with the relation". It would not have been obvious for one skilled in the art to implement Dent in view of other prior art of record in order to make such an implementation leading to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
